12. Failure to examine a lot/s by a buyer shall not constitute a cause for cancellation of sale.
13. Historically, many coloured gemstones have been subjected to a variety of treatments designed to enhance their appearance. Certain enhancement methods, such as heating, are routinely used to improve colour or transparency in rubies and sapphires. Other methods, such as oiling, enhance the clarity of emeralds. The international jewellery trade has generally accepted these methods. Other coloured gemstones may have undergone other permanent or semi-permanent treatments, such as dyeing, irradiation, coating and impregnation, possibly requiring further retreatment in order to retain their appearance. Prospective purchasers should assume that all gemstones will have been treated unless statements are made to the contrary. Gemmological reports from internationally recognised Gemmological Laboratories will be noted in the item description where available. Recent advancements in technology have led to some diamonds being treated in a variety of ways designed to enhance their appearance. These treatments can include fracture filling, laser drilling, irradiation and coating, and whilst all efforts are made to identify such treatments, it is not possible for us to guarantee that all lots containing diamonds/gem stones are free of these enhancements. We do not knowingly offer treated diamonds for sale, unless a gemmological report disclosing the type of treatment has been obtained from an internationally recognised Gemmological Laboratory, and stated within the item description. Diamond grades for colour and clarity, where printed in the catalogues are intended as guides for prospective purchasers, with the given limitations of mounts and settings, and are not guaranteed by us. Statements in the catalogue regarding the condition of lots in this sale may appear in the description, however, the absence of such a reference does not imply that a lot is in a perfect or near perfect condition, or completely free from wear or imperfections.
14. We will be pleased to offer Condition Reports to interested clients for lots with estimates of €100 or more. Notwithstanding this reports or any discussion concerning condition of a lot, all lots are offered and sold "As is" as per the conditions of sale printed in the catalogue.
15. These terms are subject to change without notice.
